"Handy Hint - If you want to reuse the windscreen numbers, surname & flag signs over and over (the way you use the magnetic panels for your door numbers) Autobarn, Supercheap, etc sell 'Altrex Light Skinz Universal Invisible Headlight Protector Film' in 450mm x 200mm sheets for under \$40. Mount the signs on this film, cut to fit, stick to the windscreen etc, remove after your event and return to the backing sheet for future use. You will be able to reuse these signs for years if you are careful and whatever film is left over can be used to protect front fog light, indicator and headlight lenses at track events".
