ATTENTION 930 TURBO & MID-911 WIDE BODY OWNERS!

RARE 18-INCH WHEEL UPGRADE OPPORTUNITY

As announced at the last Club Night, principal Social Competition Sponsor, Andrew McCathie of Traction Tyre and Suspension Centre, has kindly secured the last stock of some rare 18-inch wheels that were designed for 930 Turbo and normally aspirated Mid-911 Wide Body models. If you would like to 'future-proof' yourself against diminishing tyre choices, need an extra set for competition or an alternative modern look for the road, there are only nine sets of these reasonably-priced wheels on offer - so it is first in, best dressed! Ex-Committee Member and 930 Turbo owner Michael Dennis has prepared the following information sheets and photos to help you decide.
