Members Update

MEMBERSHIP DATABASE & AUTOMATION

The membership application that the Club currently uses is now quite a few years old and the Club has outgrown the original intent by adding competition, register and social reporting and tracking from it. Unfortunately the application is no longer up to the task and as a result many functions that are required are managed by spreadsheets outside of the application. This results in many hours of additional work usually resting on the goodwill of Club members and Carly, the Club Administrator.

The Club has invited several university IT Departments to provide a quote for the work as an activity for a third year IT project. This is not as quick as a commercial provider, but is cost effective.

No private data will leave the Club during this project.

If a member wishes to also provide a quote, then a Request for Proposal document is available via Carly at administrator@pcv.com.au.
