

Porsche Club

V i c t o r i a

STANDING COMPETITION RULES

2010

PREFACE

Membership in the Porsche Club of Victoria Inc. highlights a person's individuality and competitive spirit. Drafting a set of guidelines to suit that individual competitiveness will always be difficult so your Committee has designed the rules in order to attain the fairest basis for all members.

For competition purposes Porsches are categorised into Standard, Modified and Open classes. While the rest of the rules that follow describe the differences between these classes in detail, they can be summarised as follows:

- *Standard* classes are intended for road going vehicles that have minor modifications compared to factory specification;
- *Modified* classes include higher performance modern production vehicles and vehicles that have more significant but still limited modifications from factory specification or that have limited factory modifications for competition but that are all below a nominated power to weight level;
- *Open* classes accommodate high performance vehicles and vehicles that have been more extensively modified.

Using our power to weight formula **as a basis only**, standard Porsches are divided into A, B, C and D Classes. The Committee wishes to stress the emphasis on "standard" factory specification vehicle. The basic concept of Club competition for standard class vehicles is that an owner may use his or her vehicle as day-to-day transport throughout the week and compete in Club motor sport at the weekend. These rules have been framed to provide competition for **STANDARD** vehicles whilst allowing limited modifications to improve handling and safety. As a general rule, these standard classes allow those options (or equivalent) that were available on the car as delivered from Porsche. It should be noted that factory options might produce power or weight changes sufficient to cause a vehicle to be placed in a different class to others of that model.

Members wishing to modify their vehicles above these classes, while maintaining the ability to drive their vehicles on the road may do so and compete in MM1, M2, or Open Class. Modern & Modified 1 (MM1) Class contains higher performance modern production cars and modified cars.

In regard to the standard Porsche range being so diverse the Committee has created classes that will allow all members a chance to succeed. Creating classes means dividing lines have to be drawn resulting in some vehicles being at the top of a class and other vehicles being at the bottom of a class.

Also, the nature and extent of technology improvements to vehicles may result in vehicles being placed in a class notwithstanding that the power to weight ratio may otherwise mean it would be classified in a lower class.

The wording of these rules is not to be interpreted as PCV suggesting or condoning the removal, addition, alteration or modification of any part of a registered vehicle so that it may contravene any applicable Australian Design Rules, rendering the vehicle illegal or un-roadworthy on our roadways.

Enclosed with these rules are the PCV Standing Competition Regulations, which will apply for all competition events (except as modified by further supplementary regulations). All competitors are required to make themselves familiar with the contents of the regulations and should be aware of the CAMS NCR rules as found in the CAMS Handbook and the National Competition Rules of the Australian Auto Sport Alliance (AASA), a copy of which can be obtained from the Club.

A new vehicle Registration Form MUST BE SUBMITTED BY ALL COMPETITORS prior to the first competition event EACH YEAR.

The Committee sincerely hopes you enjoy the year's competition.

PORSCHE CLUB OF VICTORIA INC.

1. SPIRIT OF THE CLUB COMPETITION

In recognition of the sporting heritage of the marque and the numerous high performance features that are incorporated as standard in Porsche production vehicles, club competition is intended to give Porsche owners the opportunity of using their normal road vehicles in competition exclusively with other similar Porsches. Fundamental to our club competition is the encouragement of:

- 1.1. Novice drivers and those with limited competition experience; and
- 1.2. Appropriate respect for other competitors and their vehicles.

2. INTERPRETATION

2.1. In these Regulations “standard” shall mean in accordance in all respects (whether as to shape, size, material, manner of construction, composition capacity, weight, or otherwise) with the manufacturers specification for Australian delivery for the model or item in respect of which that expression is used. (To be read in conjunction with 2.2 and 3.2, the latter of which refers to sections that define allowable modifications, for instance to suspension.)

Non-Australian delivered vehicles will be classed at the discretion of the Competition Committee.

Other than where expressly permitted, no removal or substitution of standard parts is allowed. Substitution or addition of parts may be allowed with the written permission of the Competition Committee.

2.2. The decision of the Competition Committee of the Porsche Club of Victoria Inc. upon all matters of interpretation, application and enforcement of these Regulations shall be final and binding upon all competitors. All competitors who have registered and/or entered for the Club Competition shall be deemed to have full knowledge of these Regulations and to have accepted the same in full.

3. ELIGIBILITY

3.1. Club Competition will be open only to financial members of the Porsche Club of Victoria Inc. driving any of the Porsche models listed in Appendix 1 to these Regulations or as otherwise specified.

Members may drive vehicles of another make, but these are not eligible for awards (refer to 11.1). Acceptance of such entries shall be at the discretion of the Competition Committee.

Vehicles using a Porsche engine in a non original Porsche bodied vehicle &/or chassis or vehicles that have an original Porsche body and chassis but use a non Porsche engine shall be deemed to be of “another make” and shall not be eligible for awards.

3.2. Competitors who enter the Club Competition must submit the Vehicle Registration Form (Appendix 5) at the beginning of the competition year, or prior to their first event.

Points will not be awarded to Competitors who have not submitted this form prior to competing. Any such vehicle will run in NCF (No Competition Form) Class for the day, will accumulate no points and will be excluded from any count of competition class entrant numbers for the purposes of calculating numbers of class points available. Refer Section 7.4.

Changes to the NCF cannot be retrospective

Each vehicle must be registered with the Porsche Club of Victoria Inc. as a specific model (including year of manufacture). To be eligible for the standard classes A, B, C and D it must comply with the Manufacturers standard specification for such model except for any modifications permitted under Section 6 of these Rules.

- 3.3. If any vehicle competing in other than Open class differs from the standard specification of the model designated in its registration form, then such differences must be clearly identified in the registration form or have subsequently been notified in writing to the Competition Committee. The Competition Committee will verify eligibility in any class. Any differences may cause the vehicle to be reclassified.
- 3.4. The Competition Committee reserves the right to require vehicles to be presented at times and places that it may specify for eligibility assessment. In certain circumstances a vehicle may be impounded for further testing.
- 3.5. Competitors are solely responsible for ensuring that a vehicle complies with its registration details and with these regulations.
- 3.6. Any questions concerning these regulations or vehicle eligibility must be referred in writing to the Competition Committee in sufficient time to permit a ruling well in advance of any meeting in which the vehicle is intended to compete.
- 3.7. The Competition Committee reserves the right to reject or revoke a registration application for reasons including: dissatisfaction with the information presented on the registration form, not being a financial member of the PCV or having outstanding amounts owing to the PCV.

4. CLASSES

Vehicles are classed as set out in Appendix 1, which is based primarily on the vehicle's power and weight.

4.1. Standard Classes – A, B, C & D:

The weight to power tables in Appendix 1 are based on the *manufacturer's stated DIN power and DIN weight*. The DIN weight includes all fluids at normal operating levels, a spare wheel and tyre, and manufacturer's tool kit and jack. In classing cars, the Competition Committee reserve the right to take into account other considerations such as technological advances and features in relation to certain models.

- 4.1.1. A margin of +5% on the power stated in Appendix 1 is allowed. Any such allowance will be treated as taking into account all relevant variables or tolerances (whether in the vehicle, the testing equipment, the climatic conditions or otherwise).
 - 4.1.2. Vehicles are not permitted to increase power or decrease weight to move within a Standard class.
 - 4.1.3. In Standard classes the chassis and engine number must be consistent with the nominated model year.
 - 4.1.4. For cars from 1998, 50 – 60 kgs has been added to the handbook weight to allow for the weight of a given model as delivered in Australia.
- ##### 4.2. Modern and Modified Classes – MM1 and M2:

The *actual power and weight* of the vehicle as raced applies. However, the Competition Committee reserve the right to take into account other considerations such as technological advances and features in relation to certain models.

4.2.1. A margin of +2% on the weight/power ratio stated in Appendix 1 is allowed. Any such allowance will be treated as taking into account all relevant variables or tolerances (whether in the vehicle, the measuring and testing equipment, the climatic conditions or otherwise).

4.3. Open Class:

Open Class is unrestricted.

4.4. Dyno Testing

In undertaking any Dyno test the Competition Committee will use the Club's Standard Guidelines for Dyno Testing – refer Appendix 3.

5. SAFETY EQUIPMENT

All drivers must comply with the following Safety requirements or any updates they may apply from time to time. Failure to comply shall mean automatic exclusion from an event.

5.1. HELMETS

5.1.1. Helmets must comply with those as listed in Schedule D of CAMS Manual of Motor Sport. i.e. AS 1698.

5.1.2. Decoration of helmets is potentially dangerous. Members are warned of the hazard of using paint or decals. The use of helmets that have been damaged or involved in an accident is prohibited.

5.2. CLOTHING

5.2.1. Drivers competing in any Speed Event in Classes Open, MM1 & M2 are required to wear a driving suit homologated to FIA 1986 or FIA 8856-2000 or superior as well as socks, shoes and gloves with respect to the design parameters set out in the above standards. In classes A, B, C & D non-flammable clothing from neck to ankle and neck to wrist must be worn as a minimum requirement but members in all classes are encouraged to wear safety clothing as detailed above.

5.3. FIRE EXTINGUISHERS

5.3.1. Must comply with AS 1841 (except AS1841.2).

5.3.2. Must be of at least 900 gram capacity, fully charged and must be accessible and securely fastened with steel brackets.

5.3.3. Fitment of an "On-Board" Extinguishing System specifically authorized by CAMS or the FIA shall be acceptable as an alternative to the fitment of a separate extinguisher.

5.3.4. In accordance with the CAMS Manual of Motor Sport Fire extinguishers shall show evidence of inspection by an approved scrutineer within the last 6 months.

Note: Fire extinguisher requirements may differ for Touring Road Events

5.4. SAFETY HARNESSSES

Safety harnesses shall comply with the requirements of Schedule I of the CAMS Manual of Motor Sport.

5.5. BATTERIES

All vehicles shall have, on the external coachwork, a blue triangle of sides 150mm, which indicate the position of the battery. Where an external ignition cut out device is fitted, this must use a blue triangle, which indicates the position of that switch.

6. TECHNICAL REGULATIONS

6.1. VEHICLE REGISTRATION

A vehicle is considered “capable of being road registered” if it is road legal and would pass a roadworthy test in the configuration in which it is being entered for competition.

Standard Classes – A, B, C & D

6.1.1. Vehicles must be road registered or be capable of being road registered.

Modern and Modified Classes – MM1 and M2:

6.1.2. Vehicles must be road registered or be capable of being road registered.

Open Class:

6.1.3. Vehicles that are not capable of being road registered must be entered in Open class.

6.2. TYRES & WHEELS

TYRES:

Standard Classes – A, B, C & D

6.2.1. Vehicles may use only road legal tyres.

6.2.2. Vehicles will NOT be permitted to use grooved slick or two line style tyres. i.e. Hoosier 302, Dunlop D78, Bridgestone 510, 508, 610, Falken RXO46B or similar.

Modern and Modified Classes – MM1 and M2:

6.2.3. Vehicles may use only road legal tyres.

Open Class:

6.2.4. Open Class vehicles may use any tyres, including suitable racing tyres subject to safety regulations

All Classes:

6.2.5. The tread wear indicators on the tyres shall be a definitive guide in respect of determining minimum permissible tread depth. At no time prior to the commencement of any official driver training, practice, timed runs or racing may any two or more tread wear indicators in the same circumferential groove be exposed. Likewise, in the event that the tread wear indicator is circumferential, two or more exposed points of such an indicator within a 90-degree rotation of the tyre shall deem it illegal.

Refer to Vic Roads Roadworthy Requirements: page 4 of VSI-26. Alteration to, or removal of, tread wear indicators is prohibited. **Grooving of tyres is strictly prohibited.**

6.2.6. For Motor/Autokhanas, irrespective of class, off road, snow, winter tread, or any other specialist tyres are excluded

WHEELS:

6.2.7. Wheels may be of any make.

Wheel *diameter* is unrestricted.

Maximum permitted wheel *widths* *(subject to new model release) will be:

FRONT ENGINE VEHICLES:

MM1 Class	9" front and 11" rear
M2 Class	9" front and 11" rear
A Class	8" front and 9½" rear
B Class	8" front and 9½" rear
C Class	8" front and 9½" rear
D Class	8" front and 9" rear

REAR ENGINE VEHICLES:

MM1 Class	9" front and 11" rear
M2 Class	9" front and 11" rear
A Class	8" front and 10" rear
B Class	7½" front and 9" rear
C Class	7½" front and 9" rear
D Class	7" front and 8" rear

*Note: The new model release statement is to allow for the possibility that a newly released model may be fitted as standard with wheels outside the widths specified above. Only that new model will be allowed to run those standard wheel widths.

6.2.8. Wheel Nuts & Studs

- (i) Vehicles with fixed wheel studs:
All wheel nuts must, when securely holding the wheel in position, regardless of the wheel thickness, fully cover the wheel studs to be at least flush or allow the stud to protrude through the length of the nut.

- (ii) Vehicles fitted with wheel studs that screw into the hub:
These studs must have a minimum length, equal to their outside diameter, screwed into the hub when securely holding the wheel in position.

6.3. BODYWORK

Standard Classes – A, B, C & D

- 6.3.1. Panels must be of original Porsche materials.
- 6.3.2. The use of standard body apertures for brake and or oil cooling shall be permitted. Air scoops for brake and or oil cooling may be fitted within standard body shape. The opening or use of additional apertures or the taping of normal bodywork gaps are prohibited and all lights and rubber seals must be in place.
- 6.3.3. Only rear spoilers and wings of the standard Porsche shape and dimensions or factory option for that model are permitted
- 6.3.4. On a 1974-1989 G series 911 a composite or solid rear wing in the same shape as the wing supplied on a 911 3.2 Vehicle shall be allowed in substitution for the original wings.
- 6.3.5. On pre C2-911 Models, flares are to be allowed to 'SC' Specification (if not originally on the standard vehicle). – If any 911 model is retrospectively modified with turbo flares, the track width front and rear must not exceed that of a factory

turbo and the vehicle must weigh at least 50 kg more than the “Porsche Club of Victoria Inc. allowable weight” as listed in Appendix 1 for the registered model

Factory Turbo Track: Front 1432 mm
 Rear 1525 mm

- 6.3.6. On 924 models, mudguard flares are to be allowed to 944 or 924 Carrera GT Specification. In these cases the track width front and rear must not exceed that of a 944.

Modern and Modified Classes – MM1 and M2

- 6.3.7. Bodywork material unrestricted except to be of Porsche shape, profile and dimensions subject to minimum weight consideration.

Open Class:

- 6.3.8. Bodywork material unrestricted except to be of Porsche shape, profile and dimensions subject to minimum weight consideration.

6.4. SUSPENSION

Standard Classes – A, B, C & D:

- 6.4.1. All suspension components must be standard except as permitted in the following clauses.
- 6.4.2. No strengthening of suspension components is permitted. However, the rear trailing arms on pre 1969 911 models, can be strengthened or replaced by alloy arms from non-turbo models.
- 6.4.3. The original suspension pickup points for the registered model must be retained; however the material used in all suspension bushes is unrestricted. The profile, shape and dimensions of the original bush must be retained.
- 6.4.4. Adjustment of suspension geometry within the scope of the standard design is permitted however no modifications to the original geometry of the suspension are permitted.
- 6.4.5. Shock absorbers may be substituted provided they use the original unmodified mounting points.
- 6.4.6. Springs and torsion bars are unrestricted however the standard design, material, and mounting points must be retained. The standard spring configuration must be retained and additional springs or torsion bars are prohibited.
- 6.4.7. Anti-roll bars (sway bars) are unrestricted, (including through the body and adjustable types) provided they are of ferrous material only.
- 6.4.8. Subject to 6.4.5 944 & 968 vehicles are permitted to utilize coil-over shock absorbers however, the original torsion bar suspension must be retained.
- 6.4.9. Where coil springs are fitted as standard or as permitted in 6.4.8, adjustable spring platforms will be allowed.
- 6.4.10. Front and rear strut braces are permitted but must be from top of one strut tower to the other (or as near as practicable) and not otherwise cross braced or attached to the vehicle.

Modern and Modified Classes – MM1 and M2:

6.4.11. Unrestricted.

Open Class:

6.4.12. Unrestricted.

6.5. BRAKES

Standard Classes – A, B, C & D:

6.5.1. Braking systems must be standard.

6.5.2. Vehicles fitted with braking systems that are not of Porsche manufacture or of the same design as that fitted on original equipment to the registered model may be reclassified into M1 or M2 class.

6.5.3. Rotors may be grooved, or slotted, but must otherwise be standard.

6.5.4. Brake pads are unrestricted.

6.5.5. Backing plates may be removed or bent.

6.5.6. 911SC are permitted to have Carrera 3.2 discs and callipers.

6.5.7. Early 964 C2 are permitted to use the 4 spot rear callipers from the 964 C4 and 1992/3 964 C2.

6.5.8. Steel rotors of the same diameter and thickness can be substituted for ceramic on later cars.

Modern and Modified Classes – MM1 and M2:

6.5.9. Unrestricted

Open Class:

6.5.10. Unrestricted

6.6. INTERIOR

Standard Classes – A, B, C & D:

6.6.1. Interior must be standard including passenger seats with seat backs in place save that in the interests of safety, upon written application the Committee may approve the removal of some trim and rear seat backs to permit the installation of roll over protection.

6.6.2. Replacement of driver's and front passengers' seat by a suitable racing type seat is permitted.

6.6.3. All other passenger seats must be standard; M1 and M2 class vehicles must be fitted with a front passenger seat.

6.6.4. Substitute steering wheels will be permitted.

Modern and Modified Classes – MM1 and M2:

- 6.6.5. Unrestricted, except vehicles must be fitted with a front passenger seat. To conform to club regulations, which mean that the vehicle is capable of being road registered, the front passenger seat must have a suitable seatbelt.

Open Class:

- 6.6.6. Unrestricted.

6.7. ENGINE

Standard Classes – A, B, C & D:

- 6.7.1. The standard engine specification as supplied for the make and model concerned must be employed. Other than for safety and strength, mechanical modifications are forbidden. Engines and ancillaries must be to standard for the registered model as designated in the registration form. Engine rev limits may not be altered from factory settings.
- 6.7.2. 924 models may fit a Weber big bore throttle body, or equivalent as approved by the Committee.
- 6.7.3. Drive belts of engine driven pumps (e.g. air conditioning pumps) may be disconnected. Air filter elements may be removed or replaced but filter boxes must be standard.
- 6.7.4. In order to determine the power output of an engine, a chassis dyno test may be performed according to the guidelines in Appendix 3.

Modern and Modified Classes – MM1 and M2:

- 6.7.5. Engine unrestricted subject to weight/power limits.

Open Class:

- 6.7.6. Engine unrestricted subject to weight/power limits.

6.8. TURBOCHARGERS

Standard Classes – A, B, C & D:

- 6.8.1. Turbochargers must be standard specification as fitted the registered model. Turbo boost must at no time exceed standard factory specifications for the registered model. Devices providing variable boost adjustment will not be permitted, except where fitted as standard on the registered model.

Modern and Modified Classes – MM1 & M2:

- 6.8.2. Unrestricted.

Open Class:

- 6.8.3. Unrestricted.

6.9. EXHAUST

All Classes:

- 6.9.1. Any car that fails the noise test imposed at any circuit will have results for that session cancelled.
- 6.9.2. For all events held on public roads, all vehicles must comply with EPA Regulations.

Standard Classes – A, B, C & D:

- 6.9.3. All vehicles must have a factory standard layout with the same minimum diameter. Catalytic converters may not be removed or bypassed, but may be replaced by a different design, but this must be declared on the Registration form. The exhaust must comply with current EPA regulations and be roadworthy as defined by Vic Roads.
- 6.9.4. "SSI" type exhaust systems are deemed to comply with the substance and intent of Rule 6.9.3 for 911 vehicles manufactured from 1963 to 1989.

Modern and Modified Classes – MM1 & M2:

- 6.9.5. Unrestricted, subject to weight/power limits.

Open Class:

- 6.9.6. Unrestricted.

6.10. TRANSAXLE: TRANSMISSION AND FINAL DRIVE

Standard Classes – A, B, C & D:

- 6.10.1. The original gearbox and standard ratios and final drive for the registered model must be retained. Modifications are forbidden other than for safety and strength.

Modern and Modified Classes – MM1 & M2:

- 6.10.2. Unrestricted.

Open Class:

- 6.10.3. Unrestricted.

6.11. WEIGHT LIMITS

Standard Classes – A, B, C & D:

- 6.11.1. All vehicles must comply with the minimum weight limits specified in Appendix I in these Regulations. The petrol shall be full, the spare wheel in place, and the original tool kit and jack in place. However, it is recommended that the spare wheel and tools be removed during competition for safety,

accordingly, an allowance of 19 kg will be made to the specified weight limits to account for the removal of these items.

Modern and Modified Classes – MM1 & M2:

6.11.2. Weight/Power limit applies, however weight will be as raced excluding driver and apparel.

Open Class:

6.11.3. Unrestricted.

6.12. FUEL

Standard Classes – A, B, C & D:

6.12.1. Vehicles may only use Unleaded 95 or 98 Octane fuels of a type which is widely available through major fuel outlets. No specialist fuels or fuel additives are allowed. The only exception is that the 100 octane ethanol blend known as Shell V-Power Racing or ethanol blends of similar specification as approved by the Competition Committee. (Note V-Power Racing is not recommended by Porsche.)

Modern and Modified Classes – MM1 & M2:

6.12.2. Fuel must comply with Schedule 6-Fuel, of the CAMS Manual of Motor Sport.

Open Class:

6.12.3. Fuel must comply with Schedule 6-Fuel, of the CAMS Manual of Motor Sport.

6.13. TIMING

All competitors shall be required to purchase or hire a Dorian transponder to facilitate timing of performance in all sprint events or other events as advised by the Committee.

7. TROPHIES – AWARDS

In order to provide for the widest range of interest in competition for a very diverse range of members and their vehicles, the Club provides for the following trophies to be awarded during the year.

7.1. Annual Competition Trophies

Porsche Club Championship

Outright Award

Class Championship – Winner, Second & Third of each class

Ladies Championship

Rookie of the Year (at discretion of the Committee)

Additional awards – refer Appendix 4

7.2. Event Awards

7.2.1. Club Competition events as designated on the Club activities calendar and duly nominated for Club Championship status will attract placings for *each competition class** as follows:

6 or more entrants	1 st , 2 nd and 3 rd place
4 and 5 entrants	1 st and 2 nd place
2 and 3 entrants	1 st place
1 entrant	No award

*Note: Cars running in NCF Class are excluded from any entrant count. Refer section 3.2.

7.2.2. In addition, *outright placings* for 1st, 2nd and 3rd for each event will be recognised and incorporated in the relevant class trophy for the competitor. Where an outright place getter would not otherwise receive a class trophy, the outright placings will be incorporated in a separate trophy for the competitor.

7.2.3. Non-championship events may attract “unofficial” trophies at the discretion of the Committee upon application by the organiser prior to the event.

7.3. End of year Trophies

7.3.1. Trophies for individual competition events will not be presented. All Members who place at one or more events throughout the year will receive an End of year Trophy inscribed with their event placings for the year.

7.4. Scoring for Annual Trophies

- 7.4.1. The individual competitor's point score shall be the total of accumulated points in the eligible events less the worst or non-attendance result for circuit sprint events and the worst or non-attendance result for other events. Hill climbs are classified as "other" events for this purpose.
- 7.4.2. If a competitor is excluded or disqualified from an event by an official, he/she will not be eligible for any points in that event. In this case, this event does not count as a "dropped" event.
- 7.4.3. Points for placings in each event will be awarded per the following chart:

PLACE IN CLASS	POINTS
1 st	25
2 nd	20
3 rd	16
4 th	13
5 th	11
6 th	10
7 th	9
8 th	8
9 th	7
10 th	6
11 th	5
12 th	4
13 th	3
14 th	2
15 th	1

7.4.4. Where there are less than 6 starters* in a class, points will be awarded as per the chart below:

NO OF STARTERS IN CLASS	CLASS PLACE	POINTS
5 STARTERS	1 st	20
	2 nd	16
	3 rd	13
	4 th	11
	5 th	10
4 STARTERS	1 st	16
	2 nd	13
	3 rd	11
	4 th	10
3 STARTERS	1 st	13
	2 nd	11
	3 rd	10
2 STARTERS	1 st	10
	2 nd	9
1 STARTER	1 st	8

*Note: Cars running in NCF Class are excluded from any entrant count. Refer section 3.2.

7.5. Outright Award

A trophy will be awarded to the competitor who accumulated (in the same vehicle or replacement as defined in Section 11.6 & 11.7) the greatest number of points based on outright placings in all speed and skill related competition events after dropping the worst two (2) or non-attendance results as per 7.4.1.

8. CHAMPIONSHIPS

8.1. Porsche Club Championship

- 8.1.1. The Porsche Club Championship is to recognise the best vehicle & driver combination in relation to overall participation, performance and skill. It is clearly intended that this award is for the most consistent driver overall across a range of performance and skill related driving events in the same vehicle or replacement as defined in Sections 11.6 & 11.7.
- 8.1.2. The Porsche Club Championship Trophy will be awarded to the competitor who accumulates the highest number of class points in all events after dropping the worst two (2) or non-attendance results in accordance with 7.4.1.

8.2. Class Championship

These awards will be based on the points accumulated during the year in each class. The driver scoring the highest points in each class will be the class winner; second and third places will be awarded respectively, after dropping their worst two (2) or non-attendance result in accordance with 7.4.1.

8.3. Ladies Championship

Ladies Championship – the lady with most class points as per scoring for Annual Trophies. This Championship will only be awarded if a minimum of five ladies compete in the one year and an average of 3 or more ladies enter each competition event.

8.4. Rookie of the Year

- 8.4.1. The Rookie of the Year award is determined by a majority vote of the Committee or proxy where a Committee Member is absent at the time of vote.
- 8.4.2. The award is intended to recognize achievement in competition or improved competition performance amongst newer members of the Club.
- 8.4.3. The criteria for the judging shall take into account the following factors and shall be made to a member:
- (i) of less than three years standing at the time of the Annual General Meeting.
 - (ii) who has commenced regular PCV competition for the first time in the two years preceding the Annual General Meeting.
 - (iii) who has shown exceptional performance or improved performance in the PCV driving and skill related events.
 - (iv) the award shall not be made:
 - a. to the same member in two consecutive years;
 - b. to a current member of the Competition Sub Committee (but may be made to a current member of the General Committee).
 - (v) The award is made at the discretion of the Committee and need not necessarily be made each year.

9. DISPUTES AND ENFORCEMENT

- 9.1.** Protests in relation to points during the event must be lodged in writing with the Clerk of Course, with a fee of \$50 within 2 hours of the occurrence happening. Protests against the results of an event are to be submitted in writing by competitors to the Competition Committee within 72 hours of the publication of the results of an event and will be referred to the Committee.
- 9.2.** Any vehicle found to contravene the PCV rules or that does not comply with the PCV Registration Form as provided will be assessed for penalty and class assignment by the Registration Compliance Group of the Competition Committee. A minor infringement *found at Scrutiny*, such as a car having slick tyres or no passenger seat, may be dealt with at the discretion of the Stewards by moving the vehicle to another class for the day, with no further penalty. This waiver does not apply once timed runs have commenced.
- 9.3.** Dyno testing:
- 9.3.1. At any time before, during or after any competition event, one or more vehicles may be selected for testing on a chassis dyno in accordance with Appendix 3 and/or weighed. Such selection will be at the discretion of the Competition Committee.
- 9.3.2. The vehicles selected will be
- 9.3.3. Immediately taken to a Parc Fermé location.
- 9.3.4. At the discretion of the Clerk of Course vehicles can be taken from Parc Fermé for subsequent track runs. The vehicle must be returned to Parc Fermé after such track time. The vehicle cannot be refuelled.
- 9.3.5. After the meeting the vehicle will be transferred to the point of testing, either by truck or trailer or convoy where it will be impounded until tested.
- The vehicles are to be tested with the tyres used during the event or when selected.
- No work or other action to or on the vehicles is permitted until the completion of testing. Contravention of this will result in immediate disqualification without further notice.
- 9.3.6. If any vehicle is found to be illegal in the class in which it competed, the cost of the examination and/or dyno testing and transport to the point of testing will be borne by the owner/entrant.
- 9.3.7. If any vehicle is found to be illegal in the class in which it competed, it will be moved to an appropriate class by the Competition Committee. Alteration to that decision is at the discretion of the Competition Committee as per rule 3.3.
- 9.3.8. In the unlikely event of damage being sustained during such testing, the owner/entrant will be solely responsible for any rectification costs.
- 9.3.9. Any vehicle whose power tests above or weighs less than that allowed by these regulations for the registered model maybe liable for a penalty imposed by the Registration Compliance Group of the Competition Committee. This penalty will include at a minimum forfeiture of points from at least two events, including the event at which the vehicle was selected. The vehicle will still be counted for that day in the number of competitors in its class for the purpose of allocating points (refer sections 7.2 and 7.4).
- 9.4.** A competitor found guilty of an offence has the right to appeal to the Competition Committee (via the Competition Secretary) against any decision by the Registration Compliance Group. This appeal must be submitted within 8 hours of the decision being handed down. The fee for the protest is \$100 non refundable.

10. EVENTS

The following types of events are to be considered eligible for championship points status during a Club competition year. This is to be subject to reviewing each year and publication at the commencement of each competition year. Recognition for achievement against stated objectives will be measured in accordance with scoring rules.

10.1. Speed Events (Sprints, Hill climbs)

10.1.1. Objective:

To recognize individual performance in the achievement of the fastest timed run or runs for the nominated events as specified in the event calendar for the year.

All competing vehicles will be scrutineered prior to each event for safety and may also be assessed for eligibility.

10.1.2. Definition:

Typically these events may include Calder, Winton, Phillip Island, Sandown, Haunted Hills Hill Climb, National Meeting speed events and any other designated speed event. These are to be run under the CAMS permit (or other such acceptable permits) and rules in force from time to time.

10.1.3. Scoring:

Speed events will be judged on the basis of a competitor's 'fastest time or times' for the meeting as determined by the Competition Committee.

The class winner and place getters will be the three fastest competitors in each class. First place going to the fastest, second and third to the respective next times in ascending order.

The number of runs attempted is at the discretion of the individual, but no additional runs will be allowed for runs missed and no entrant may have more than the designated number of runs for the day as determined by the Competition Committee. Re-runs where appropriate to be at the discretion of the Clerk of Course.

10.2. Motorkhanas/Autocross

10.2.1. Objective:

To recognize consistency and skill in handling a vehicle. The object of the competition is for each driver to complete the specified tests in the prescribed manner in the shortest time without incurring penalties.

All competing vehicles will be scrutineered prior to each event for safety and may also be assessed for eligibility.

10.2.2. Definition:

Motorkhana is defined as "a meeting including only events designed to test the acceleration, braking and general manoeuvrability of the automobiles and the skill and judgement of the driver. Motorkhanas may be conducted on a sealed or unsealed surface, and shall not be, or include a speed event. The term 'Motorkhana' includes the term "Autokhana" and "Gymkhana".

To be run and scored in accordance with the PCV Motorkhana Rules as determined by the Committee from time to time. Notwithstanding the foregoing, in the absence of a relevant rule then the CAMS National Motorkhana Code shall be referred to. The relevant PCV rules are as follows:

- (i) Before each event the course may be demonstrated once, such demonstration shall not be undertaken by a competitor.
- (ii) Each event shall generally consist of two runs at the same prescribed course. In the event of inclement weather or unstable surface, then at the discretion of the event director, the course may be re-laid.
- (iii) In the event of a failure in the timing equipment the competitor will be allowed a re-run.
- (iv) The Clerk of Course has the discretion to allow re-runs if it is considered that the driver has been unduly hindered (e.g. child or dog on course).
- (v) At the completion of a run the competing vehicle must stop in the finish garage before moving off.
- (vi) Tyres: Refer Section 6.2.
- (vii) Penalties:

Plus 5 seconds

- a. Knocking a marker or permanently displacing a marker from its original position
- b. Where the vehicle stops, but any part of it is outside the required boundaries such as the finishing garage or a point on the course requiring a stop
- c. Finishing a test with the vehicle completely outside the finish garage

Wrong Direction Penalty

- d. Incorrect method including breaching the intent of the course (eg hitting multiple markers to achieve a faster time)
- e. Failing to stop completely at the finish of a test or stop at a nominated stopping point (which may be markers or a garage)
- f. Failure to Start or complete a test
- g. Running out of order without prior approval of the Clerk of Course
- h. For a Wrong Direction Penalty, the competitor will be awarded their first non Wrong Direction time for that course excluding penalties and plus 12 seconds. Where all attempts at the same course are Wrong Direction then the entrant will receive the Slowest time for the course plus 5 seconds.
- i. For the purpose of awarding penalties, "Slowest Time" for a course will be the slowest time recorded by a competitor who completed the course correctly. If there is a substantial gap between the slowest few competitors and the next fastest competitor then these times will be excluded from the calculation of the Slowest time. This allows novices to compete and take as much time as they require to complete the course correctly without affecting the more seasoned competitors. If the slowest time plus 5 seconds exceeds double the fastest time then the penalty shall equal double the fastest time.

(viii) Motorkhana Courses

Courses may be notified in advance of the day of competition at the discretion of the Committee, in which case generally 6 courses shall be named prior to the event and 4 courses scheduled on the morning of the event.

(ix) Scoring

- a. Times taken (including penalties) will be accumulated to provide a total time for the day.
 - b. The outright winner and place getters will be the three competitors with the minimum total time for the entire meeting. First place going to the lowest, second and third to the next lowest total times.
 - c. Class winners and place getters are determined as above within each class.
 - d. For applicable class championship points see Section 7.
- (x) Motorkhana Running Order
- a. The initial starting position (X) shall be determined by means of a lottery by the Competition Committee and an assistant. This figure (X) shall be the same starting position for each group running at the one time.
 - b. To determine the subsequent starting positions for subsequent runs:
 - c. Divide the number of competitors, say 46 by the number of courses to be run simultaneously (i.e. groups running at one time) say $2 = 23$
 - d. Divide this figure by the number of runs each competitor would have for the meeting say $8 = 2.9$
 - e. Round the nearest whole number: Therefore 3
 - f. This figure becomes the incremental increase by which the new starting vehicle is determined by adding the increment cumulatively to the initial starting position (X) for each new run commenced
 - g. Therefore in the above example:
 - Run 1 Starting No X
 - Run 2 Starting No X + 3
 - Run 3 Starting No X + 6
 - Run 4 Starting No X + 9
 - Run 5 Starting No X + 12
 - Run 6 Starting No X + 15
 - Run 7 Starting No X + 18
 - Run 8 Starting No X + 21

10.3. Economy Run

The objective is to recognize skill in achieving fuel economy in driving.

The event will be run according to the PCV published rules for the Economy Run. Class and outright placing will be determined based on minimum quantity of fuel used in the event, plus penalties.

10.4. Other

The Club may introduce motoring events of a competitive nature from time to time where a specific objective can be defined, the event can be fairly and objectively judged and comply with the Club objectives and relevant CAMS regulations in force at the time.

11. GENERAL RULES

11.1. Participants

- 11.1.1. All entrants in Club sporting competition must, on the day, be current financial members of the PCV or members of invited Clubs.
- 11.1.2. To be eligible for championship points and trophies, an entrant must drive a Porsche at the event. Members only enjoy a “grace and favour” facility to drive other makes in Club events should they elect but do not qualify for, or affect any placing or points for others driving a Porsche. Acceptance of such entries shall be solely at the discretion of the Competition Committee. Runs do not qualify for official placing or points
- 11.1.3. If a member enters a different vehicle in an event during the year the points gained in the event will not be allotted to the different driver/vehicle combination unless as provided under Section 11.6 & 11.7.

11.2. Licences

To be eligible to compete in Club Competition events run under CAMS rules that member must hold a current CAMS Level 2S Licence, equivalent or superior, and have either substantiated to the committee an acceptable level of track experience or have completed an acceptable advanced/performance driving course.

11.3. Multiple Entries

- 11.3.1. No competitor can drive more than one vehicle in an event without the approval of the Competition Committee. This approval will not be given for motorkhanas. Only one Porsche, nominated prior to the event will qualify for championship points.
- 11.3.2. No more than two drivers may nominate in any one vehicle. Only one driver is permitted in Economy Runs.
- 11.3.3. A vehicle will only be permitted to be entered in one class i.e. the class in which it is registered.

11.4. Multiple Starts

At the discretion of the Clerk of Course, multiple starts may be included in sprint meetings and if included will be conducted under CAMS regulation.

11.5. Replacement Vehicles

If a member nominates another vehicle during the year, in place of one they have been running in the Championship, the Competition Committee may in exceptional circumstances, and on receipt of written application, approve the use of the replacement vehicle for the remainder of the year, provided it is in the same class that the previous vehicle was competing. Points gained for the previous vehicle may then be carried forward to the new vehicle. Points cannot be transferred if this new vehicle is in a different class from that of the original vehicle.

11.6. Substitute Vehicle

- 11.6.1. With good cause and on written application to the Competition Committee, as early as practicable prior to the commencement of an event the Competition Committee may in exceptional circumstances allow a member to drive a substitute vehicle, provided it is in the same class and of similar performance to the vehicle for which he/she has applied for substitution thereof and may accrue points to their credit.

11.6.2. Only two (2) such substitutions per competition year will be permitted.

11.6.3. No substitute vehicle will be allowed for an economy run.

11.7. Transfer of Accrued Championship Points

Where a vehicle/driver is re-classified during a given competition year, then the points accrued to that driver in the various Club Championships shall not be transferred, subject to the discretion of the Competition Committee.

APPENDIX 1

Notwithstanding the following power/weight classifications the Competition Committee at its discretion reserves the right to make final decisions on the classification of vehicles within classes.

OPEN CLASS - UP TO 4.99

OPEN CLASS includes:

- (i) all cars listed in table below;
- (ii) any car specifically built for competition;
- (iii) all cars running on non-legal road tyres.

**Note # - Series 2 1996 GT3's
may be allowed to run in M1
provided they clearly meet the
weight to power requirement.**

MODEL	YEAR	CAPACITY Litres	WEIGHT Kgs	POWER Kw	RATIO Kgs/ Kw
1996 GT2	01+	3.6	1339	340	3.94
1911 3.0 RSR	73	3	920	232	3.97

356 CLASS

All PCV members and 356 registered members may enter a 356 in any Club event and may be awarded trophies for the day but no points will be awarded for championship awards.

APPENDIX 2
PCV Standing Competition Regulations

**DRIVER FAMILIARISATION / SPRINTS / HILLCLIMBS/ MOTORKHANAS /
AUTOKHANAS**

1. AUTHORITY

The meeting will be held under either: -

a) the provisions of the International Sporting Code of the FIA, the NCR's of CAMS, Standing Regulations for speed events,

or b) the National Competition Rules of AASA,

(Depending on the body issuing the event permits)

the PCV Standing Competition Rules, these regulations and any further regulations issued. The meeting will be held under the provisions of the CAMS or AASA permit, issued for that event.

Note: - The supplementary regulations issued for an event takes precedence over any standing regulations or PCV Competition Rules.

2. ORGANISER

Porsche Club of Victoria Inc., PO Box 911 Kew, 3101 and an organising committee consisting of an Event Director, Event Secretary and Clerk of Course & Stewards.

3. EVENT DIRECTOR

As advised in further supplementary regulations.

4. ENTRY SECRETARY

PO Box 911, Kew 3101

Fax (03) 9391 5911

5. STEWARDS

As advised in further supplementary regulations.

6. CLERK OF COURSE

As advised in further supplementary regulations.

7. EVENTS

The meeting, a closed to club event, may consist of driver familiarisation and a number of timed runs for all competitors. Sprint events will consist of a number of multiple start flying laps.

APPENDIX 2

PCV Standing Competition Regulations

8. ENTRIES

Entries will open approximately 21 days prior to the date of the event and will close at 9.00 am on a day prior to the event as specified in the supplementary regulations. In exceptional circumstances an entry form may be accepted at the venue on the day of competition. This will be at the discretion of the Stewards.

Entry fees will be set out in the official entry form for the event. Entries must be made on the official entry form and must be accompanied by the relevant fee. Entries where payment is being made by credit card can be sent by fax to the number indicated on the entry form or alternatively those being paid by cheque can be by post to P.O. Box 911 Kew 3101 or on-line via the Club's website, pcv.com.au.

The Competition Committee will reserve the right to refuse any entry.

Any entrant who does not start in an event or advise of withdrawal within 48 hours prior to the start of an event shall forfeit all monies paid and no refund shall be made. Entrants who provide 5 days notice of withdrawal from an event will be subject to a 50% of registration fee.

The maximum number of entries as stipulated in the Supplementary Regulations will only be accepted from financial members of the PCV with a CAMS Level L2S Licence, or equivalent. Club membership card and current CAMS licence must be presented at registration.

If the number of entries received exceeds the specified maximum as stipulated in the Supplementary Regulations, entries will be selected in order of receipt of correctly completed entry forms accompanied by the appropriate entry fee.

Accepted entries will be posted by class and membership number on the Club's website 48 hours prior to the event. Members are encouraged to check that their entry has been received.

9. EXCLUSION

The Clerk of Course or Stewards may exclude from further competition any driver whom:

- i. after leaving the circuit, rejoins the track at a speed or in a manner considered dangerous to themselves, any other competitor or any official
- ii. disobeys the direction of an official or abuses an official.
- iii. exceeds a speed of 10kph in the marshalling area
- iv. for multiple vehicle events, drives in a manner considered to be dangerous to other competitors, or in such a way that a faster vehicle is prevented from passing
- v. exceeds the noise level as determined by the event organiser.

As per Section 7.4.2 if a competitor is excluded or disqualified from an event he/she will not be eligible for any points for that event. In this case, this event does not count as a "dropped" event.

Without prejudice to any other penalties that may be imposed.

10. ALCOHOL & DRUGS

The consumption of alcohol by drivers or crews is forbidden until the conclusion of the event. All drivers must not have a zero blood alcohol or drug limit. Random tests may be conducted at any event. Refer to CAMS Drugs in Motor sport policy for further information. (NCR 145A)

APPENDIX 2

PCV Standing Competition Regulations

11. *RUNNING DETAILS*

The event may include a Driver Familiarisation session and instruction may be available to those requiring assistance. It is anticipated that each competitor will spend a substantial amount of time on the track during the day

Vehicle and driver requirements, as set out in these regulations will apply to the event.

Where allowed, the carrying of passengers shall be in accordance with the CAMS guidelines for passengers in vehicles and then only after signing the appropriate CAMS indemnity form. Passengers other than for the purpose of instruction and PCV approved persons will be prohibited.

For sprint events, each run will consist of a warm-up then flying lap or laps. The flying laps will be timed during each run. Results will be calculated on the fastest individual time and not on the order of finishing. Drivers will be given as many runs as can be fitted in during the day. Drivers must start in their prescribed order. Drivers requiring a run outside their normal position must obtain approval from the Clerk of Course prior to competing.

In multiple vehicle events, vehicles will generally be sent off individually. The number of vehicles allowed on the track for driver familiarisation and timed events will differ from track to track and shall be advised in either the Supplementary Regulations or at the Driver Briefing on the day of the event. There will be an approximately 10 seconds between vehicles. Care must be taken when overtaking other vehicles and when slowing down at the end of each run.

Timing for sprint events will be by means of Dorian transponders, which each competitor must purchase either privately or through the Club, or hire from the Club on the day of the event. Failure to fit a Dorian transponder will result in No times being recorded for the event.

It is the responsibility of the competitor to ensure that their Dorian is fitted correctly and is being registered by the timing system.

In hill climb events; a Driver Familiarisation session may be conducted. Each driver will be given the opportunity of a number of runs. Single vehicle timed ascents will be conducted after Driver Familiarisation.

Motorkhanas/Autokhanas will be conducted in accordance with CAMS National Motorkhana Code. Motorkhana tests will generally be chosen from the CAMS Motorkhana Tests booklet.

Drivers must start in their prescribed order. Drivers requiring a run outside their normal position must obtain approval from the Clerk of Course prior to competing.

12. *CLASSES*

Porsche Vehicles will be classified as per Standing Competition Rules.

13. *AWARDS*

Trophies will be awarded as per the Standing Competition Rules.

APPENDIX 2

PCV Standing Competition Regulations

14. VEHICLE REQUIREMENTS

Competing vehicles must comply with the relevant NCR's.

(Section 10, Schedule A, and Schedule B)

See "Scrutineering Requirements" in the NCR's for information

15. EXHAUST

Noise level not to exceed 95 dB(A) at 30 metres drive-by test unless stated differently in further supplementary regulations. All road-registered vehicles must be fitted with mufflers to comply with noise limits prescribed for road usage. Noise levels in excess of the prescribed limit could result in withdrawal of the right to compete any further on the day.

16. DRIVERS

While participating in speed events, driver familiarisation or competing in the event, all drivers must wear an appropriate helmet and non-synthetic clothing that will protect the skin from flame, apart from hands and face (i.e., long sleeves, long trousers or slacks, suitable shoes and socks).

PCV strongly recommend flame resistant single layer or better driving suits, flame resistant racing boots and flame resistant gloves.

Competitors in Open, MM1 & M2 Classes are required to wear driving suits, boots and gloves, in accordance with CAMS Manual of Motor Sport, Schedule D - Apparel Clause 3 - Clothing (i) Races.

17. REGISTRATION

Registration for the event must be completed at the venue where PCV membership cards, CAMS licence, official entry form, relevant fee and vehicle registration for completion will be confirmed.

Failure to register by the prescribed time as stipulated in the Supplementary Regulations may result in disqualification for the day.

18. SCRUTINY

Scrutiny will be conducted at the venue prior to the event. Any alteration to vehicles after scrutiny must be reported immediately. Vehicles damaged during the event must be returned to Scrutiny for inspection prior to continuing. Vehicles considered unsafe or unsuitable will be precluded from competition.

19. ABANDONMENT

The organising Committee will reserve the right to postpone, abandon or cancel the event if, in their opinion, the number of entries is insufficient or by "force majeure". Full or partial refunds may be offered at the discretion of the organising Committee.

APPENDIX 2

PCV Standing Competition Regulations

20. **SCRUTINEERING REQUIREMENTS**

As a PCV competitor you are required:

- a) At speed events to wear appropriate attire in accordance with Clause 5 **Safety Equipment** (in respect to classes Open, MM1 & M2. Drivers of classes A, B, C & D should wear non-flammable clothing that covers from ankles to wrists & throat. No person will be permitted to wear nylon or similar material. (Refer Section 5 **Safety Equipment** and Append 2 Section 16 **Drivers**).
At all other events drivers should wear non-flammable clothing that covers from ankles to wrists & throat. No person will be permitted to wear nylon or similar material.
- b) To present your vehicle for scrutineering within the allocated time period.
- c) To present your vehicle to the scrutineer in a roadworthy condition and ready to compete. Failure to do so will reduce the track time available to you and fellow members.
- d) Appropriate crash helmet (Refer Section. 5 **Safety Equipment**)
- e) Australian Standard approved fire extinguisher - minimum capacity 900 gram, firmly mounted (Refer Section. 5 **Safety Equipment**).
- f) Seatbelt or harness in good condition (minimum 3 point) (Refer Section. 5 **Safety Equipment**).
- g) All cars must have 2 independent fastening systems which simultaneously hold the bonnet closed.
- h) Battery (or batteries) held down securely and appropriate signage in accordance with Section 5 **Safety Equipment**.
- i) Tyres in good condition, of suitable speed rating for the vehicle, legal tread depth as defined by PCV Standing Competition Rules. Open Class 1 vehicles fitted with internal roll bars may only use suitable racing tyres.
- j) Front wheel bearings in good condition and correctly adjusted.
- k) All wheel nuts correctly tightened.
- l) Throttle return adequate and not sticky.
- m) Metal valve caps on all wheels.
- n) No loose items inside vehicle or boot(s).
- o) Operating **STOPLIGHTS**.
- p) Operating headlights and taillights.
- q) Tow hook in place, front or rear position.
- r) Dorian transponder fitted and operational

TO ASSIST THOSE RUNNING THE EVENT AND YOUR FELLOW MEMBERS WHO MAY WISH TO SPEAK TO YOU, PLEASE WEAR YOUR NAME TAG.

~~~

## **APPENDIX 3**

### **PCV Standing Competition Regulations**

#### **STANDARD GUIDELINES FOR DYNO TESTING**

1. The Competition Committee will nominate a Dynamometer Test Facility for the Competition year. Competitors may use that Facility to check the performance of their vehicle.
2. The Competition Committee will ensure that the Facility is as independent as possible, and experienced in the testing of the vehicles used by members in Club competition.
3. The Club will attempt to obtain the most cost effective use of that machine for club members and the testing to be performed during the year for the purposes of clause 9.
4. The result (power and weight) obtained from that facility can be used by a member in communication with the Competition Committee about eligibility of a vehicle. Prior or subsequent results from that Facility do not replace or overrule results obtained by that Facility in an eligibility test run under clause 9.
5. Protest. A protest against the results of a test will only be heard if the vehicle has not been removed from the impound condition at the facility, and the protest has been lodged in writing with the Competition Secretary within 72 hours, and is accompanied by the \$100 non refundable fee. The protest is to the Competition Committee.

#### **Dynamometer Testing for Power**

6. The Facility will use its standard procedures for the testing of Porsche vehicles, including operation by experienced nominated personnel.
7. The Facility will bring cars to the standard condition for the machine, including placement of fans and temperature probes and tyre pressures. Fuel will be added for classes A, B C and D to fill the tank, invoiced to the owner.
8. The operator will record all key measures, inputs and adjustments to the vehicle and dynamometer on a running sheet.
9. The Facility will provide a copy of the Power Chart (DIN Kw) and the running sheet to the owner, and retain a copy of the running sheet.

#### **Testing for Weight**

10. The Facility will use 4 wheel weighing equipment.
11. The equipment must have been calibrated within 12 months of use.
12. The weight and calibration date will be recorded on the running sheet. This will be the as weighed result, before adjustments for spare wheels, jacks etc.
13. The weight will be recorded after the fuel tank has been filled for a class A, B, C, or D vehicle.

## **APPENDIX 4**

### **OCCASIONAL EVENTS AND AWARDS**

At the discretion of the Committee, from time to time, additional events may be conducted or awards presented. It will not necessarily be every year.

Following are some examples.

#### **1. Club Member of the Year Award**

- 1.1.** The Club Member Trophy is a subjective award determined by a majority vote of the Committee or proxy where a Committee member is absent at the time of the vote.
- 1.2.** The award is judged on the most conspicuous contribution by a member to the general activities and benefits of the membership of the Club over the entire activities year and is based on all or any combination of the following factors:
  - (i) Attendance at Club events throughout the year (social and sporting)
  - (ii) Assistance or contribution to the running of Club events or affairs
  - (iii) Exceptional contribution to the Club over and above the normally expected duties of a member
  - (iv) Demonstrable “Club Spirit”
  - (v) Other identifiable activities as the General Committee may deem appropriate.
  - (vi) Exclusions: The award cannot go to:
    - a. a current General Committee member in the year of the award
    - b. the same member two consecutive years
    - c. a non-financial member or member of less than twelve months standing at the time of AGM.

#### **2. Concours d’Elegance Event**

- 2.1.** The objective is to recognise effort and skill in preservation and/or restoration of a Porsche to original specifications for that particular model.
- 2.2.** A Concours event may attract championship and class points.
- 2.3.** Scoring would be in classes with Class and Outright placings to be awarded according to PCV Concours judging rules.
- 2.4.** The rules would be published following announcement of the event.
